FROM THE PRESIDENT:

Welcome to OLLI!

Have you noticed the smiling faces of your friends and fellow OLLI members? The next time you take a class or attend an OLLI event, look around and note the happy expressions. As we approach our Fall Term this will be a great time for you to begin or continue your interaction with these smiling faces as we share experiences and learn together.

The Curriculum Committee has developed a selection of courses in all disciplines ranging from literature and music, science and geology, history and geography through creative courses such as drawing and quilting to classes on health, nutrition and exercise. Instructors enjoy presenting OLLI courses, and the interaction between instructors and students is inspiring.

The social and cultural events offered during the year are other opportunities for pleasure and enjoyment. Be sure to watch the OLLI E-news or OLLI Insider newsletter for information about these events as well. Please remember that OLLI is a member-driven, volunteer-run organization. We are always appreciative of your thoughts and opinions as well as your volunteer work.

I look forward to seeing your smiling face at OLLI.

THE PLEASURE OF MUSIC
with Dr. Daniel Hornstein

Did you know that studies have shown that people who listen to music are smarter, retain more information, and are in better moods for longer periods of time?

It’s true—and OLLI has two great music courses this fall to help you enjoy these benefits while our resident music expert, Dr. Dan Hornstein, shares his wealth of knowledge.

How to Listen to Jazz • M • 10:30 am - noon • C61F1708
Jazz, along with country-western and rock ‘n’ roll, is one of the three distinct American musical genres. Find out how it continues to grow and develop as you study the evolution of blues to the present day. Can you predict the future of jazz?

Introduction to World Music • F • 8:45 - 10:15 am • C61F1778
World Music introduces us to a mix of musical styles and traditions from the African continent, Native America, the Andes, Eastern Europe and folk music of the Americas. Reap the science-backed health benefits of music while learning from a true expert.

Monday

French for Travelers’ Survival
NEW Taking a trip to France sometime soon? Then this course is for YOU. Learn how to breeze through “des douanes” (customs and excise), get a room, navigate “le métro,” order “le déjeuner” or “le dîner” with (or without) “du vin” and ask the ever-important “Où sont les toilettes, s’il vous plaît?” An added plus: understanding the answer!! Learn many cultural differences that will both endear the French to you and prepare you to make the most out of visiting this fantastic country. No tense study or verb conjugation here!!
9/11 - 10/30 ● M ● 8:45 - 10:15 am
C64F1704 ● Dr. D Hornstein
Text: Rick Steves’ French Phrase Book & Dictionary (paperback)

Chess for Adults
Wake up your Monday mornings this fall! Coach Hodge will introduce you to chess with a simplified strategy to enable you to enjoy an incredibly beneficial pastime. Chess raises your IQ, improves recovery from stroke or disability, promotes brain growth, and exercises both sides of the brain. There are no age limits—grandchildren play with grandparents; grandparents take on all ages! Have fun playing a challenging game of chess.
9/11 - 10/30 ● M ● 8:45 - 10:15 am
C73F1705 ● D M Hodge

Biology, The Science of Life (DVD)
Join us as we delve further into the fascinating science of life. Do you know how genes are turned on and off? How do proteins wind up in the right place? Just how do cells talk to each other? This term Duke University Professor Stephen Nowicki will address these questions and their impact on development and functioning of organisms. Previous term attendance not required.
9/11 - 10/30 ● M ● 8:45 - 10:15 am
C68F1701 ● C Reinhart

Intermediate Topics in Drawing
So what do you want to draw? After a brief introduction to the basics of realistic pencil drawing and shading, we’ll explore topics determined by the class. Potential topics include various aspects of composition, portrait, landscape, and figure drawing; also possible are explorations of pencil types and other graphite tools, papers and measuring. Study material will be tailored to the desires of the class.
9/11 - 10/30 ● M ● 8:45 - 10:15 am
C73F1703 ● J.V. Beaupre

Happy Birthday National Parks!
(DVD)
Continue your tour of the wonders of our National Parks! In honor of the 100th Anniversary of the National Parks Service, OLLI at UAH is bringing you National Geographic’s Wonders of the National Parks, a Geology of North America. Join avid travelers Ray Mulcahy and Sue Chatham as they continue to guide us through this series featuring National Geographic’s’ Ford Cochran as he leads us on a tour of many of North America’s iconic parks. Learn what makes these parks so special. Previous term attendance not required.
9/11 - 10/30 ● M ● 10:30 am - noon
C61F1708 ● Dr. D Hornstein
Text: The History of Jazz (Paperback)

How to Listen to Jazz
NEW Jazz has been called one of the three distinct musical genres that America has given to the world (the other two are country-western and rock ‘n’ roll). Look at the basic features of jazz, its evolution from the blues and the importance of improvisation to the genre, using Ken Burn’s PBS Series Jazz for examples. Learn about the history and constantly varying styles of jazz, from New Orleans “Dixieland,” through the “Chicago style” of Prohibition, to the Big Band Era, the rise of “Bebop” and “Cool jazz” post WWII, and the many other styles embraced by jazz, from Latin swing, to classical music and rock. We will look at jazz as it exists in the present, and where it may be going.
9/11 - 10/30 ● M ● 10:30 am - noon
C71F1702 ● Chatham & Mulcahy

Basic Nutrition for Everyone
Did you know that nutritional needs change dramatically as we age? Adequate nutrition is necessary for health, vitality and quality of life, especially as we experience a decrease in basal metabolic rate and physical activity. These decreases change our caloric needs. Our bodies might experience a decrease in kidney function, redistribution of body composition and changes in our nervous system. Join us for an overview of nutrition concentrating on the dietary guidelines, nutrition-related diseases, current news, and how to evaluate nutrition information claims.
9/11 - 10/30 ● M ● 10:30 am - noon
C70F1706 ● B A Johnson

A New Era of Gravitational-wave Cosmology
NEW! Virtually all of our understanding of astronomy has been derived from observations of electromagnetic waves emitted by astronomical objects. That changed in 2015 with the observation of gravitational waves emitted by the merger of two massive black holes. Learn how the modeling of gravitational waves in expanding space-time opens up a new front in the science of cosmology—making it simpler, predictable, and testable.
9/11 - 10/30 ● M ● 10:30 am - noon
C68F1709 ● C Ross
Intermediate German

If you have studied some German and have a basic understanding of the language, you will enjoy this class. Knowledge of present tense, imperatives and modal verbs, as well as the accusative and dative cases is expected. In each lesson, we will incorporate vocabulary and grammar study as well as audio comprehension, conversational skills, and German culture. Homework to guide and encourage review of the learned material will be assigned. We will cover chapters 16-20 in the book, adjusting according to student understanding and progress.

9/11 - 10/30  •  M  •  10:30 am - noon
C64F1707  •  J Schweinsberg
Text: German Made Simple

Little Red Riding Hood Comes of Age

Explore “Red Riding Hood” as it has progressed through time and retelling, beginning with Greek myth and ending with a short story by Joyce Carol Oates. Rather than being a simple story warning children to be aware of strangers, “Red Riding Hood” is actually a complex coming of age tale exploring themes of death, sex, and the cycle of life.

9/11 - 10/30  •  M  •  1:00 - 2:30 pm
C61F1712  •  Dr. M Morphew

Socrates Café: Where Hot Topics are Discussed

Join a community that encourages people to think about issues and offers a forum and guidelines for discussing them. In a safe environment, join a group of individuals from all walks of life, all nationalities, all religions, all political views, and both genders who like to talk. We will discuss what is on our minds, from something on the news that day, to the age-old questions of “What is...” or “What if...?” In Socrates Café, we want to learn how to think, not what to think.

9/11 - 10/30  •  M  •  2:45 - 4:15 pm
C63F1714  •  R Sisko

HudsonAlpha Advancements

The HudsonAlpha Institute for Biotechnology couples cutting edge genomic research with clinical medicine, economic development, educational outreach and entrepreneurship. Join Dr. David Bick, Medical Director, HudsonAlpha Clinic for Genomic Medicine, and other speakers from HudsonAlpha as they present an overview of this world-class institute and the fascinating work of the investigators and staff.

C68F1723  •  9/11 - 10/2  •  M  •  1:00 - 2:30 pm  •  Dr. D Bick and HudsonAlpha Team

Grand Rounds Cases

Medical professionals use “grand rounds” to uncover, identify, and combat conditions, injuries and diseases. During grand rounds they often uncover tiny clues patients fail to notice, and use these clues to put patients on the fast track to proper treatment. Investigate intriguing medical mysteries with our UAH College of Nursing as they cover topics such as puzzling pain, dizzy attacks, sudden collapse, and unexplained coughs. Learn what specific questions nurses ask, and why they ask them; what they look for during physical exams; and how they interpret test results.

9/11 - 10/30  •  M  •  1:00 - 2:30 pm
C70F1713  •  UAH College of Nursing

Brushstrokes: Painting with Friends

Have fun as our instructor leads us, step by step, in creating our own “masterpieces” based on existing works of art using acrylic paints. Bring an old shirt to protect your clothes. A $50 supplies fee is payable to the instructor at the first class–cash or check accepted. Fee includes all painting supplies and two 16" x 20" canvases.

9/11 - 10/2  •  M  •  2:45 - 4:15 pm
C73F1715  •  L Connors

Money and Banking Demystified

In ancient times “money” was mystical and sacred; modern money is commercial. Money is a means of exchange for goods and services. Learn what supports our monetary system, and the differences between Federal chartered banks, state chartered banks, savings and loans, money center banks, community banks, and Federal Reserve Banks. Money and banking are indispensable in both our daily financial transactions and most essential long-term plans. As we continue our exploration of money and banking, we will gain a working knowledge of the systems that affect our daily lives. Previous term attendance not required.

9/11 - 10/30  •  M  •  2:45 - 4:15 pm
C63F1714  •  R Sisko

**COURTESY REMINDER**

- Seating is limited. Only sign up for courses you plan to attend.
- Never “visit” a course. Contact the Registration Office to ADD a course, if space is available.
- Plans change? Promptly contact the Registration Office to DROP courses. This may allow a waitlisted person to attend.

9/11 - 10/30  •  M  •  1:00 - 2:30 pm
C66F1710  •  S Tumminello
Tuesday

**Critical Economic Thinking in a Divided Political Environment**

Do you feel bombarded with allegations from politicians, media, pundits, and friends and neighbors concerning socio-economic issues? Learn to evaluate issues within an economic context by selecting current issues of interest, explaining the applicable economic principles or theories, and examining the issue in light of those principles. We do not seek to provide “right” or “correct” answers, but rather allow participants to apply a methodology to separate “wheat from chaff.”

9/12 - 10/31 • T • 8:45 - 10:15 am
C64F1719 • L Medenbach

**Classic Cars**

Remember the “good old days” when you could identify a car with one quick glance? Do we have a class for you! We have a series of speakers who are going to talk about the “classic cars” when there was no doubt that a Ford and a Chevy would not be confused. Bring your questions and your stories. We will see who can top whom. We are going to have a good time!

9/12 - 10/31 • T • 8:45 - 10:15 am
C63F1720 • K Kraus

**Archaeology: An Introduction to the World’s Greatest Sites (DVD)**

Tour with National Geographic Explorer Dr. Eric Cline who will introduce us to how archaeologists select digs, excavate sites, and preserve artifacts. Along the way, we will visit ancient civilizations and exotic places from King Tut’s tomb in Egypt and the Dead Sea Scrolls to the army of terracotta warriors in China. Previous term attendance is not required.

9/12 - 10/31 • T • 8:45 - 10:15 am
C68F1721 • L Dreher

**German Literature**

Join us in reading an entertaining travel story, Hans und Liese by Kurt Sepmeier. The story reveals aspects about old German life; it deals with friendship, loyalty, and respect for self and others. Occasionally, using crossword puzzles, we will enjoy practicing our knowledge of the German language and culture. Materials will be provided.

9/12 - 10/31 • T • 8:45 - 10:15 am
C64F1719 • L Medenbach

**Beginning Italian, Term 3**

Possiamo parlare! (That’s Italian for “Can we talk?”). Brush up rudimentary Italian skills by learning to speak Italian in real life settings. Learn the right way to say it the first time and practice with fellow students in Little Italy in Wilson Hall. You don’t have to have been in this class last term, but a little Italian experience will help!

9/12 - 10/31 • T • 10:30 am - noon
C64F1724 • L Marotta

**America’s Founding Fathers (DVD)**

**Topology–Shape of Nature (DVD)**

Topology is a mathematics field relating to properties that remain unchanged when shapes are deformed by twisting, stretching or squeezing. Whether a shape is square or round, large or small is irrelevant, because stretching can change those properties. Topology concerns qualitative properties rather than quantitative properties. What is it possible to say about a shape’s overall structure? Is it connected, does it have holes or is it knotted? Learn how knots and strings appear almost everywhere in nature, as knotted molecules in chemistry and the shape of DNA in biology.

Topics and Speakers Will Include:

**Sep 13 – The GOES-R Satellite System | Dr. Steven J. Goodman**
NOAA's Geostationary Operational Environmental Satellites (GOES) have been a mainstay of weather forecasts and environmental monitoring for the past 40 years. The first satellite in the GOES-R series, now GOES-16, is already producing stunning imagery of high impact environmental phenomena such as severe storms, tropical storms, lightning, fires, volcanic eruptions, dust storms, and even solar disturbances while undergoing in-orbit post launch testing before being placed into operation.

**Sep 27 – In the Hands of Strangers | Kim Niemeier**
It’s the making of an award-winning movie! But, it’s a true story. A World War II P-47 fighter pilot, flying missions before, during, and after D-Day was shot down on June 12, 1944 over occupied France in the European Theater. Badly burned, he managed to parachute to earth in Normandy where he was found and hidden by villagers before the Germans could find him. Hear the rest of this amazing story when Kim Niemeier shares the multi-year journey she embarked upon to tell her father’s story of his time during World War II. Kim will also share writing tips and techniques she developed which may enable you to tell an interesting story too!

**Oct 18 – Molecular Genetics: Copper in Cattle to Cancer in Kids | Dr. Warren Gill**
We are entering a new era, one in which gene editing will become progressively more straightforward, and more essential to animal welfare and livestock productivity, and Dr. Warren Gill can tell us why and how. In 2013, Gill formed an alliance with Dr. James West at Vanderbilt. Since then, they have developed a skin test for micron-mineral deficiency, genes for a white Angus and a method for stem cell harvest and preservation that will restore reproductive viability to animals and humans. Dr. Gill will discuss the doors that our research is opening to improve human lives.

**Oct 25 – Stop Human Trafficking | Pat McCoy**
Is Alabama a high-risk area for human trafficking? Join Pat McCoy, Chair, Huntsville-Madison County Human Trafficking Task Force, as she shares examples of labor, sex, and coercion being used in human trafficking occurring in Alabama. Pat will discuss the motivations for this growing criminal industry, and expose the tactics used by traffickers to exploit the most vulnerable among us. Learn what we can do as individuals and communities to reduce the spread of this threat to our society.

**Nov 1 – Alabama at 200 | John Allen**
Alabama’s 200th birthday for both territory and state is upon us. Long-time history buff John Allen, former president of the Huntsville-Madison County Historical Society and the Tennessee Valley Civil War Round Table, together with Bart Williams and Julian Butler, will share an overview of Alabama history for the past 200 years, tell us about the Historical Society’s programs for the Bicentennial, and highlight Alabama’s programs for the State’s 200th birthday in a series of lectures beginning this fall.

**Memoir as Written Expression**
NEW! If you have always wanted to write with care and confidence, in a meaningful way, author Matt Freese will provide you with concrete strategies always grounded in who you are. With such an approach you will develop observational and self-analyzing techniques. Drawing upon his 32 years as a secondary school English teacher, 20 years as a psychotherapist and the author of five books, Matt will assist you in discovering your inner directness. Using projective exercises, and other writing tricks of the trade, in a very short time you will be writing substantive material. If you want to learn or refine writing skills, here’s your chance to learn from a professional.

America in the Gilded Age and Progressive Era (DVD)

NEW The Gilded Age produced such men as Andrew Carnegie, John D. Rockefeller and J. P. Morgan. The genius of these “captains of industry” helped guide the United States to greatness. However, spectacular advances in industrial output had darker consequences. Struggles of American workers and frequent episodes of labor-capital violence led to growing popular support for economic, social and political reforms. Gratia Mahony guides us through this fascinating presentation by Professor Edward T. O’Donnell. Discussion will follow each episode.

An Introduction to World Music

NEW! This course is designed to be an introduction to the music of the world that is NOT European “classical” music or “popular” music. Instead, a variety of musical styles and traditions will be examined, including (but not limited to) those of the African continent, Native American, Andean, Eastern European folk music and folk music of the Americas. It is a continuation of “An Introduction to World Music I,” which was offered winter term, 2017. Listening and discussing various examples of the multitude of different musical styles and performance methods will be stressed. In addition, the function of each style of music will be placed within the culture that produced it.

Tai Chi

NEW! Tai Chi, also known as “shadow boxing” in the US, originated as a martial art in China. A form of moving meditation, Tai Chi is a powerful key to inducing relaxation, reducing stress, increasing strength, and fostering concentration. Tai Chi requires coordination of mind and body through focus on developing balance and cultivating internal energy, and is appropriate for all individuals capable of standing independently and looking for exercise with gentle movements.

Great Presidents (DVD)

NEW! Don’t miss this in-depth look at the personal histories, character, and values of what historians consider the makings of a “great president.” See how presidential decisions from Jefferson to Ronald Reagan shaped American and world history as we explore inside stories of the modern world’s most powerful office. By studying the great presidents, you will find that there is no single pathway to political power and better understand the historical consequences that each presidency had on the United States.

Sep 15 – Cultural Capitals of Spain – Bob & Nancy Darnall
In March, 2017, 30 OLLI members traveled the picturesque country of Spain. Experience the travelers’ adventures through photos of the beautiful scenery, historical sites, architecture, spectacular museums, and cathedrals. Relive their visits to Madrid, Valencia, Bilbao, Malaga and Barcelona. Hear stories of the Spanish people, art, music and specialties, and learn how the travelers weathered four seasons in 16 days!

Sep 29 – Scottish Highlands – Barbara Staggs
Travel with Barbara Staggs, extensive traveler and Master Photographer, to the Scottish Highlands and the Isle of Skye. Discover what makes the Scottish Highlands one of Europe’s most unique natural wonders as you learn the history of ancient lochs, clan lands, castles and glens.

Oct 13 – Dayhiking Yosemite’s High Sierra Camps – Ray Mulcahy
A travelogue of two separate week long trips hiking in the High Sierra backcountry of Yosemite National Park. Students can expect to learn about the beauty of the High Sierras and how hikers can spend a week hiking there while wearing only a daypack.

Oct 27 – The Dilemma of Our National Parks – Dr. Daniel Hornstein
Join OLLI member and instructor Dr. Hornstein as he discusses the contradiction of the national parks’ core mission—to preserve and protect—and to allow people to enjoy the wonders of nature. Yellowstone National Park is absolutely breathtaking, but with over 4.2 million visitors last year, traffic jams, crumbling roads, understaffing, and overflowing parking lots are not unusual. What efforts are being made to cope with these problems? Learn how our National Park Service is working on these problems while conserving our pristine parks for future generations.

Nov 3 – Crafting a Life: The Stories Behind the Poems – Melissa Morphew
Author Melissa Morphew will read poems from her five published books and tell the stories behind their creation—many of which are very funny. Even serious poetry can emerge from the funniest, weirdest circumstances—for instance the time a woman wearing a purple silk hat arrived at Melissa’s house with an orange juice bottle and broke out her windows while claiming she was the Messenger of God. Odd things happen to Melissa all the time, and she has the poems to prove it.

Frequently Asked Questions

Why does my account password need to be reset?
To bring you improved online capability, we have implemented a new registration system. If you have not reset your password since December 2016, you must reset your password the first time you use the system. Your email address is your User Name. Click Forgot Password and you will receive an email to get you started.

What is a “rolling” membership?
Your OLLI at UAH membership will be valid for 12 (or 24) months beginning the month your membership was processed. For example, if you join in December of the current year, your membership will not expire until December of the following year. At least 3 weeks before your membership is due to expire, you will receive a reminder that it’s time to renew. If your membership expires, your new OLLI at UAH membership will be valid for 12 (or 24) months beginning the month your renewal is processed.

Who attends OLLI courses?
OLLI is identified as a lifelong learning organization for adults 50 and over, whether working, retired, or semi-retired. However, there is no set age requirement and you are welcome to join at any age!

How many courses may I take per term?
You may take as many courses as you wish! An $85 per term fee covers up to three courses per term. Additional courses over the three are $15 each. Some courses may have additional fees for supplies or lab costs as identified in the description.

Who teaches OLLI courses?
Course leaders are qualified members of OLLI, the University, and others who enjoy sharing their knowledge. OLLI is particularly proud of its volunteer teachers and speakers, many of whom are well-known experts in their fields.

What are Weekly Bonuses?
Generally free, weekly bonuses are classes, lectures, or special activities for OLLI members! Check out page 15 or visit Osher.uah.edu/WeeklyBonus for details.

Why couldn’t I get the course I wanted?
The maximum number of students per course is decided by the instructor or by room capacity. Students are enrolled in the order registrations are received. If your course is full, you can be placed on a waiting list and will be contacted if a seat becomes available. Notify our Registration Office to drop a course to allow wait-listed registrants to attend.

Can I get a refund if I decide to withdraw from courses?
Due to the low cost at which these courses are provided and the additional cost to process refunds, no refund is given for those who wish to withdraw from classes.

What is the difference between the membership and course registration fees?
The $16 membership fee provides all the benefits listed on page 1. The $85 course registration fee is paid per term for enrollment in up to three courses (above three are $15 each).

Does OLLI provide member financial assistance?
Yes. For assistance information call 256.824.6183.

Where can I find campus parking information?
See inside back cover for complete parking information.

How do I access the Campus WiFi?
Your logon ID and password will be emailed with instructions for accessing WiFi. Call 256-824-6183 for assistance.

How do I join the library?
Each week, the Salmon Library staff receives an updated listing of OLLI members. The first time you visit, stop by the circulation desk for your library card and an explanation of benefits.

What are the benefits of joining the UAH Fitness Center?
You will be able to join for a short-term (3 months), and will receive $10 off the monthly membership rate.

ZONED PARKING

IMPORTANT CHANGE!
NEW OLLI PARKING PERMIT PROCEDURES

To improve parking on campus, Zoned Parking is being implemented. OLLI course participants will receive a Commuter parking permit as part of their registration and have special parking privileges in zones designated for Faculty/Staff+Commuter parking. See map below.

Completion of an OLLI Permit Application is required BEFORE a parking pass is issued, therefore permits will no longer be mailed. The application requires vehicle year, make, color, and type. Your driver’s license number, state of issue, and license plate number will also be required.

Three ways to obtain your parking permit:
1. In person, at the time of registration in Wilson Hall 103
2. During the OLLI Open House, Wed, Aug 30, 2 – 4 pm
3. In Wilson Hall lobby on the day of your first fall-term class

If you are NOT registered for term courses, but plan to attend other OLLI activities on campus, please select one of the following to avoid parking fines:
1. Purchase an OLLI Term Parking Permit at the discounted rate of $10 from the Registration Office, Wilson Hall 103
2. Obtain a Free Visitor’s Parking Pass for up to 1 week from the UAH Police Department
3. Purchase a year-long UAH Parking Decal at the UAH Police Department for $120

TEACH FOR OLLI!

OLLI at UAH is always looking for dynamic instructors who have a passion for teaching. No grades, no tests, no homework – just the pleasure of sharing your knowledge.

Join the OLLI at UAH faculty and experience the joy of giving to a community of lifelong learners. Call 256.824.6183 or email OLLI.Info@uah.edu.
