SPACE ORIENTATION FOR EDUCATORS

3.0 GRADUATE CREDIT HOURS

2017 Sessions - Summer: June 19 - July 21 or Fall: Aug. 7 - Sept. 8
Graduate Tuition Fee: $595

Build on the knowledge and experience you gain as a part of the Space Academy® for Educators and earn graduate credit by attending this follow-on graduate course offered by The University of Alabama in Huntsville. The online course will provide you a formal framework for reflection and the development of lesson plans to adapt your new expertise in space science into effective and exciting methods for classroom implementation and discovery.

Courses Available:
• College of Education- ED 532*
• College of Science- SPA 532*

* Prerequisite: Participation in a 2017 session of the Space Academy for Educators.

The graduate course includes the following primary assignments:
• Reflection Website - Participants will develop a website that incorporates experiences in the workshops, tours, interactions with other educators, or missions from camp.
• Weekly Discussions – Participant will discuss topics related to their camp experiences with other educators in the course.
• Development of Lesson Plans – Enhance Lesson Plans received from camp to create stimulating methods for the classroom.

Course activities are correlated with STEM related curricula developed at the U.S. Space & Rocket Center.
